TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1A.
 - 2.1.1A.(1)
 - 2.1.1A.(1)A.
 - 2.1.1A.(1)A.(I)
 - 2.1.1A.(1)A.(I)(i)
 - 2.1.1A.(1)A.(I)(i)(1)
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

SECTION 4 - SERVICE CHARGES AND SURCHARGES, (CONT'D.)**4.4 Carrier Presubscription****4.4.1 General**

Carrier Presubscription is a procedure whereby a Customer designates to the Company the carrier that the Customer wishes to be the carrier of choice for IntraLATA and InterLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to an IntraLATA or InterLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative long distance carrier on a per call basis.

4.4.2 Presubscription Options - Customers may select the same carrier or separate carriers for IntraLATA and InterLATA long distance. The following options for long distance Presubscription are available:

- Option A:** Customer selects the Company as the presubscribed carrier for IntraLATA and InterLATA toll calls subject to presubscription.
- Option B:** Customer may select the Company as the presubscribed carrier for IntraLATA calls subject to presubscription and some other carrier as the presubscribed carrier for interLATA toll calls subject to presubscription.
- Option C:** Customer may select a carrier other than the Company for IntraLATA toll calls subject to presubscription and the Company for InterLATA toll calls subject to presubscription.
- Option D:** Customer may select the carrier other than the Company for both IntraLATA and InterLATA toll calls subject to presubscription
- Option E:** Customer may select two different carriers, neither being the Company for IntraLATA and InterLATA toll calls. One carrier to be the Customers' primary intraLATA interexchange carrier. The other carrier to be the Customer's primary InterLATA interexchange carrier.
- Option F:** Customer may select a carrier other than the Company for no presubscribed carrier for IntraLATA toll calls subject to presubscription which will require the Customer to dial a carrier access code to route all IntraLATA toll calls to the carrier of choice for each call.

If a new Customer is unable to make selection at the time the new Customer places an order to establish local exchange service, the Company will read a random listing of all available intraLATA and interLATA carriers to aid the Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given 90 calendar days in which to inform the Company of his/her choice for primary toll carrier(s) free of charge. SECTION 4 - SERVICE CHARGES AND SURCHARGES, (CONT'D.)**4.5 Public Telephone Surcharge**

In order to recover Company expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate calls that originate from any pay telephone used to access Company provided services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company provided service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (e.g., using the “#” symbol). The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

SECTION 6 - SUPPLEMENTAL SERVICES, (CONT'D.)

6.5 Directory Listing Service

6.5.1 General

The following rates and regulations apply to standard listings in light face type in the white pages (alphabetical section) of the telephone directory and to the Directory Assistance records of the Company.

Directory listings are limited to such information as is essential to the identification of the listed party. The listing of a service, commodity, or trade name is not permitted unless it is the name, or an integral part of the name, under which the Customer does business.

A listing is limited to one line in the directory, except where in the judgment of the Company, more than one line is required to identify the Customer properly. In such cases, the additional lines required are provided at no extra charge.

Listing services are available with all classes of main telephone exchange service.

6.5.2 Listings

A. Primary Listing

One listing, termed the primary listing, is included with each exchange access line or each joint user service.

6.5.2 Listings, (Cont'd.)

B. Additional Listings

Additional listings may be the listings of individual names of those entitle to use the customer's service or, for business, Departments, Divisions, Tradenames, etc.

In connection with business service, regular additional listings are available only in the names of Authorized Users of the Customer's service.

Ordinarily, all additional listings are of the same address and telephone number as the primary listings, except as provided for joint user and alternate number listings. However, when it appears necessary as an aid to the use of the directory and provided satisfactory service can be furnished, a listing will be permitted under the address of a branch exchange, Centrex or extension of an exchange service line installed on the premises of the Customer, but at an address different from that of the attendant position of main service.

Special types of additional listings, such as Alternate, Alpha and Informational, Duplicate and Reference Listings, Foreign Listings, etc. take the same business classification as the service with which such listings are furnished.

SECTION 6 - SUPPLEMENTAL SERVICES, (CONT'D.)**6.5 Directory Listing Service, (Cont'd.)****6.5.2 Listings, (Cont'd.)****C. Nonpublished Service**

The telephone numbers of nonpublished service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public.

Non published information may be released to emergency service providers, to customers who subscribe to Company offerings which require the information to provide service and/ or bill their clients, or, to telephone customers who are billed for calls placed to or from nonpublished numbers and to entities which collect for the billed services. Nonpublished names and/or telephone numbers may also be delivered to customers on a call-by-call basis.

Incoming calls to nonpublished service will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim the calling party may present, except claims of emergencies involving life and death. In such cases, the Company will call the non-published number and request permission to make an immediate connection to the calling party.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-published number in the directory or disclosing it to some. If, in error, the telephone number is published in the directory, the Company's only obligation is to credit or refund any monthly charges the Customer paid for non-published service.

The Subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published service or the disclosing of said number to any person.

Non-listed service means that the Customer's telephone number is not listed in the directory, but does it appear in the Company's Directory Assistance Records.

This service is subject to the rules and regulations for E911 service, where applicable.

SECTION 7 - CONTRACT SERVICES**7.1 Special Contract Arrangements**

At the option of the Company, services may be offered on a contract basis to meet specialized pricing requirements of the Customer not contemplated by this tariff. The terms of each contract shall be mutually agreed upon by the Customer and Company and may include discounts off of rates contained herein and waiver of recurring, nonrecurring, or usage charges. The terms of the contract may be based partially or completely on the term and volume commitment, type of access arrangement, mixture of services, or other distinguishing features. Unless otherwise specified, the regulations for such arrangements are in addition to the applicable regulations and prices in other sections of the tariff. Service shall be available to all similarly situated Customers for a fixed period of time following the initial offering to the first contract Customer as specified in each individual contract.

7.2 Special Service Arrangements

7.2.1 If a Customer's requirements cannot be met by services included in this tariff, or pricing for a service is shown in this tariff as "ICB", the Company will provide, where practical, special service arrangements at charges to be determined on an Individual Case Basis. These special service arrangements will be provided if the provision of such arrangements is not detrimental to any other services furnished under the Company's tariffs.

7.2.2 Special service arrangement rates are subject to revision depending on changing costs or operating conditions.

7.2.3 If and when a special service arrangement becomes a generically tariffed offering, the tariffed rate or rates will apply from the date of tariff approval.
